Flexibility, Speed and Access

All-New Bosch ADS 525X and ADS 625X Diagnostics Tools

The next generation of Bosch Diagnostics from the world's leading diagnostics brand. The extreme diagnostic scan tools with a flexible, modular software subscription, industry-leading OE-level vehicle coverage, weeks of battery life, and all-system scans with the fastest times.

Engineered and assembled in the USA by Bosch, the ADS X tools feature an intuitive, technician-approved, user interface and standardized navigation with a consistent information flow for every make and model providing a customized and exceptionally, easy-to-use experience.

Be confident that the Bosch ADS is built to offer extreme performance and diagnose the vehicles that come into your shop today, and tomorrow.

Extreme Flexibility

- ▶ **Enhance your software subscriptions** for what you need most. All-access coverage for your first year included plus 30 day free trial of Enhanced Subscription which includes industry leading, full-system color wiring diagrams and Repair-Source, a complete on-tool OEM service and repair information library. You have the power to upgrade to the Enhanced subscription at any time.
- ▶ **Up to 14 hours of uninterrupted battery life** and weeks of standby time will give you superhuman endurance
- ▶ Enjoy the freedom of a **wireless VCI** and move throughout the bay with connected ease
- ▶ **Add accessories** effortlessly, including wireless borescopes, battery testers and more

Extreme Speed

- ▶ **Quick-Scan** powers all-systems DTC scans that clock in at under 60 seconds and complete scans in 30 seconds or less for many vehicle makes and models
- ▶ Complete **pre- and post-scan reporting** for all possible systems available for the vehicle will have you flexing your new diagnostic muscle
- ▶ **Android 9+ software and redesigned VCI hardware** gives you unprecedented, future-proof processing power — allowing you to browse videos, navigate online resources, utilize productivity tools and more without breaking a sweat

Extreme Access

- ▶ Feast your eyes on the **ultra-crisp, widescreen 8" and 10" displays** that provide outstanding visibility indoors and in bright sunlight
- ▶ 100% OE-approved for secure vehicle access. Unlock the FCA Secure Gateway Module (SGW) found in late-model vehicles seamlessly and in seconds
- ▶ Fix the most vehicles with OE-level vehicle coverage as far back as 1976, from the world's leading diagnostic brand
- ▶ **J2534-compliant VCI** for factory programming with your OE subscription and PC
- ▶ **Multipurpose docking station*** charges the tablet handset and powers the VCI providing seamless wireless updates and access to repair information without being connected to the vehicle

*Included with ADS 625X, available as an upgrade for ADS 525X

Tablet, AC power adapter and OBD II cable: With light and voltmeter

Google Play

Browse videos, navigate online resources, utilize productivity tools and more

Docking station comes standard with ADS 625X. Optional accessory for ADS 525X

Accessories to complete your Extreme toolkit

VET 100 Circuit Analysis Tool (3920)

Identify faulty sensors, wiring harnesses, and/or issues with PCMs as the next step after code/no code scan tool diagnostics. The tool helps troubleshooting accuracy by pinpointing circuit diagnostic component failure.

TPA 300 TPMS (3934)

Activate and read TPMS sensor data, program sensors, check remote keyless entry signal and display sensor data in seconds.

BAT 120 Battery and Starter/Charger System Tester (1699501320)

The BAT 120 is a wireless battery and starting/charging system tester used with the Bosch ADS 325 and ADS 625 diagnostic tools. The BAT 120 sends data directly to an app pre-installed on the Bosch ADS tools, saving time and putting more vehicle diagnostic information on the scan tool.
