

# LOW PRESSURE LEAK TESTER

## Smoke Machine

### SMT 500

Find all types of leaks: Vacuum, EVAP (Fuel Vapor Recovery) Exhaust, Oil, Manifolds, EGR Valves, Seals, Gaskets, Brake Vacuum Hoses, Cooling Systems, Wind and Water Leaks, and much more.

#### **Onboard Micro Air Compressor**

By eliminating the need for an external compressed shop air source, technicians can quickly diagnose, locate, and repair leaks whether the repair job is across the service bay or across town.

#### **Variable Flow Control**

SMT 500 can detect leaks as tiny as 0.010" in low pressure sealed systems. The variable flow control valve allows you to pinpoint tiny leaks quickly.

#### **Pressure Decay Testing**

SMT 500 improves the accuracy of repairs and eliminates comebacks by verifying that leaks are repaired accurately the first time.

#### **Compact, Lightweight Design**

At 11 lbs., SMT 500 is ultra-portable and lets technicians go where the work is. SMT 500 is perfect for mobile repairs, testing vehicles in the field, and fleet repairs.

#### **KIT INCLUDES:**

Easy INTAKE™ Inflatable Bladder, Cap Plug Kit, Cordless LED Light, Schrader Valve Removal Tool, EVAP Service Port Adapter, OEM-Approved Smoke Agent, Durable Storage Case

**BOSCH**  
Invented for life
